**Disclaimer: The ADA Accessibility Review Board is a board of community members volunteering their time to give necessary feedback on projects of the City which may have an impact on Title II**

of The American's with Disabilities Act. The intent of the review is not to evaluate complete compliance with an accessibility standard, but to ensure overall programmatic accessibility. The Board is not presented all the information and is not given sufficient time for a thorough review. The Board's review is merely cursory and should only be considered a recommendation of the Board. The Board recommendation should not be considered a certification that the project meets ADA standards. The Board only reviews the project based on The American's with Disabilities Act Accessibility Guidelines and other U.S. Access Board guidance and does not address any local codes, such as any building codes or fire and safety codes. Any conflicts in local codes should be addressed by the appropriate parties.
