New Business

1. Appeal No. BOA-EL-010013-2019.

Appeal from Gary Baumgardner to connect a blower with one circuit instead of two. Larry spoke that he felt that Joe VanRuler was correct in his interpretation that the installation instructions required 2 circuits to be run to the unit. Gary Baumgartner felt that the instructions required 2 circuits only if full capacity was required. Mike Fisher mentioned he had visited with a Trane representative and they felt that one circuit would be satisfactory. Chad VanEide stated he felt it would probably run without any problems. A motion was started by Mike Fisher then withdrawn and replaced with a different motion.

A motion was made by Mike Fisher and a second was made by Jeremy VanWell that the Electrical Inspectors ruling shall stand as presented, unless a letter from the manufacturer (Trane) is received by the city of Sioux Falls electrical inspectors within 30 days from today, March 19, 2019, stating the following The unit is installed per the

manufacturer's installation instructions, the listing instructions and is allowed to be operational with connections on circuit #1 only. Ayes, 3. Nays, 0.

Adjournment

A motion was made by Chad VanEide and a second was made by Jeremy VanWell to adjourn the meeting at 1:52 p.m. Ayes, 3. Nays, 0.
