IV. PUBLIC INPUT

V. UNFINISHED BUSINESS

- *Police Department:* None
- *City Engineering:* None
- *Private Schools:*
 - Sioux Falls Lutheran Crosswalk: Traffic Engineering had observed traffic flow for morning and afternoon pick up and drop off at Sioux Falls Lutheran and noticed that the drop off and pick up plans works very well. Children were accompanied by an adult at the crosswalk. It seems that drivers still ignore the signs of the crosswalk area and would like to have a flashing light installed. Traffic will complete a warranty analysis for flashing light at cross walk and will report back at next meeting.

SIoux FALLS SCHOOLS TRAFFIC SAFETY COMMITTEE

- 77th & Mustang Journey Elementary: Traffic Engineering has been out observing traffic flow before and after school. It seems any inclement weather causes the issues of back up down Grange. Their main concerns are speed and turns and the blind curve. Would it be possible to have a forced right when leaving the parking lot? Traffic will look at weather forecast and monitor before and after school traffic. The police department will also arrange to have speed signs brought out to remind traffic of speeds.

- *Public School:* None

VI. NEW BUSINESS
